**CITIZENS COMMUNICATIONS INVESTS \$1 MILLION IN  
JUICE WIRELESS, INC.**

**NEW YORK, July 5, 2006** – Juice Wireless™ Inc., the award-winning market leader in mobile data applications, services and products, today announced that it has secured a \$1 million strategic investment from leading Fortune 1000 company, Citizens Communications Company™ (NYSE: CZN), a full-service communications provider offering telephone, television and Internet products and services in rural areas and small and medium-sized towns and cities around the US under the name Frontier Communications Solutions.

Juice Wireless will tap this new financing to support further development and sales of Juice Wireless' existing line of leading-edge mobile data applications and services. Additionally, monies will be used to accelerate sales and marketing efforts for its latest critically acclaimed product, the JuiceCaster™ ([www.juicecaster.com](http://www.juicecaster.com)).

Launched initially in beta to a limited and controlled user base earlier this year, Juice released its JuiceCaster™ 2.0 product to rave reviews at this year's CTIA conference in Las Vegas in April. The JuiceCaster is the first-ever, truly cross-platform, device-agnostic solution for multimedia content creation, sharing and social networking for all types of content, available on the market today. The JuiceCaster enables consumers and businesses to quickly and easily create, distribute, search and access any kind of content - text, images, audio and video - from digital devices anytime, anywhere using PCs and mobile phones. JuiceCaster 3.0, expected later this summer, will add support for iPods®, set-top boxes, PSPs, MP3 players and most other IP-enabled digital devices, including digital cameras and camcorders. Earlier this month Juice announced a marketing relationship for JuiceCaster with handset company, Kyocera.

In addition to the investment, Juice and Citizens will work closely together to sell and distribute Juice's innovative and award-winning products and services.

-More-

“Citizens continuously looks for ways to bring new technology and services to our customers. Juice's products complement our strategy well and reinforce our reputation as a full-service communications provider,” said Maggie Wilderotter, Chairman and CEO of Citizens Communications. “We believe that Juice’s combination of innovative solutions, experienced management and market success make it an ideal investment for us.”

“Citizens is a highly respected company in the communications industry, and this strategic investment in Juice Wireless is yet another validation not just of our potential, but also our success thus far,” said David Herman, CEO of Juice Wireless. “We are thrilled to have Citizens’ support both as an investor and as a sales and distribution avenue as we continue our efforts to bring our products and services to market, particularly with our groundbreaking, web and mobile-based JuiceCaster service.”

### **About Juice Wireless**

Juice Wireless, Inc. is an award-winning creator of innovative, consumer-friendly and highly useful applications accessible by consumers on virtually all digital devices, including PC’s, most mobile phones and soon all handheld devices. Juice Wireless recently unveiled its flagship product, the JuiceCaster™ (<http://www.juicecaster.com>).

Juice has executed many highly successful mobile phone based programs, marketing campaigns and product extensions for customers, including AOL, Condé Nast, Hearst, Teen Vogue, The Gillette Company, P&G, Sony and Transworld Entertainment (FYE.com). In November 2005, Juice received the *Best Use of Mobile Marketing in North America Award* by the International Mobile Marketing Association (MMA) for its innovative EpiToGo™ mobile recipe and shopping application. Founded in April 2004, the privately held company is headquartered in New York City, with development offices in Los Angeles and Mumbai, India.
