

## **Executive Leadership Team**

**Daniel Paik**  
**Chief Technology Officer**

As CTO, Daniel Paik supports the technical vision for Juice Wireless, Inc., and provides the day-to-day technical direction and operations for the corporation.

Paik comes to Juice with over 10 years of experience in IT management consulting with a variety of different clients, including: Hewlett Packard, Warner Brothers Online, Ingram Micro, Washington Mutual Home Mortgage, Cadence Design Systems, and Westell. He is skilled at software development, business analysis technical architecture and project management and has proven success in systems integration, developing and supporting practice areas and overseeing multiple engagements encompassing diverse technology solutions. Paik's particular areas of expertise and specialization are in e-Business strategy and implementation, B2B and B2C commerce, banking and finance and Customer Relationship Management (CRM).

Prior to joining Juice Wireless, Paik held management positions at Framework, Inc., a New York based mortgage software company and at KPMG Consulting (now Bearing Point) in the High Tech Practice. He began his career as a Technical Architect at Xpedior Consulting, Inc., designing end-to-end eBusiness solutions for Global 2000 companies and emerging Internet businesses.

Paik earned a Bachelors of Science degree in Computer Science from the University of California at Berkeley.
